

Using Longitudinal Research to Guide Policy

Janet Holt
Eric Lichtenberger

Illinois Education Research Council
Southern Illinois University Edwardsville

College Changes Everything
Tinley Park, IL
July 2013

Illinois Education Research Council

- Founded in 2000
- Housed within the Graduate School at Southern Illinois University Edwardsville
- Research arm of the Illinois P-20 Council
- Advisory Board with wide representation
- Bringing research to both policy and practice
- Annual research symposium

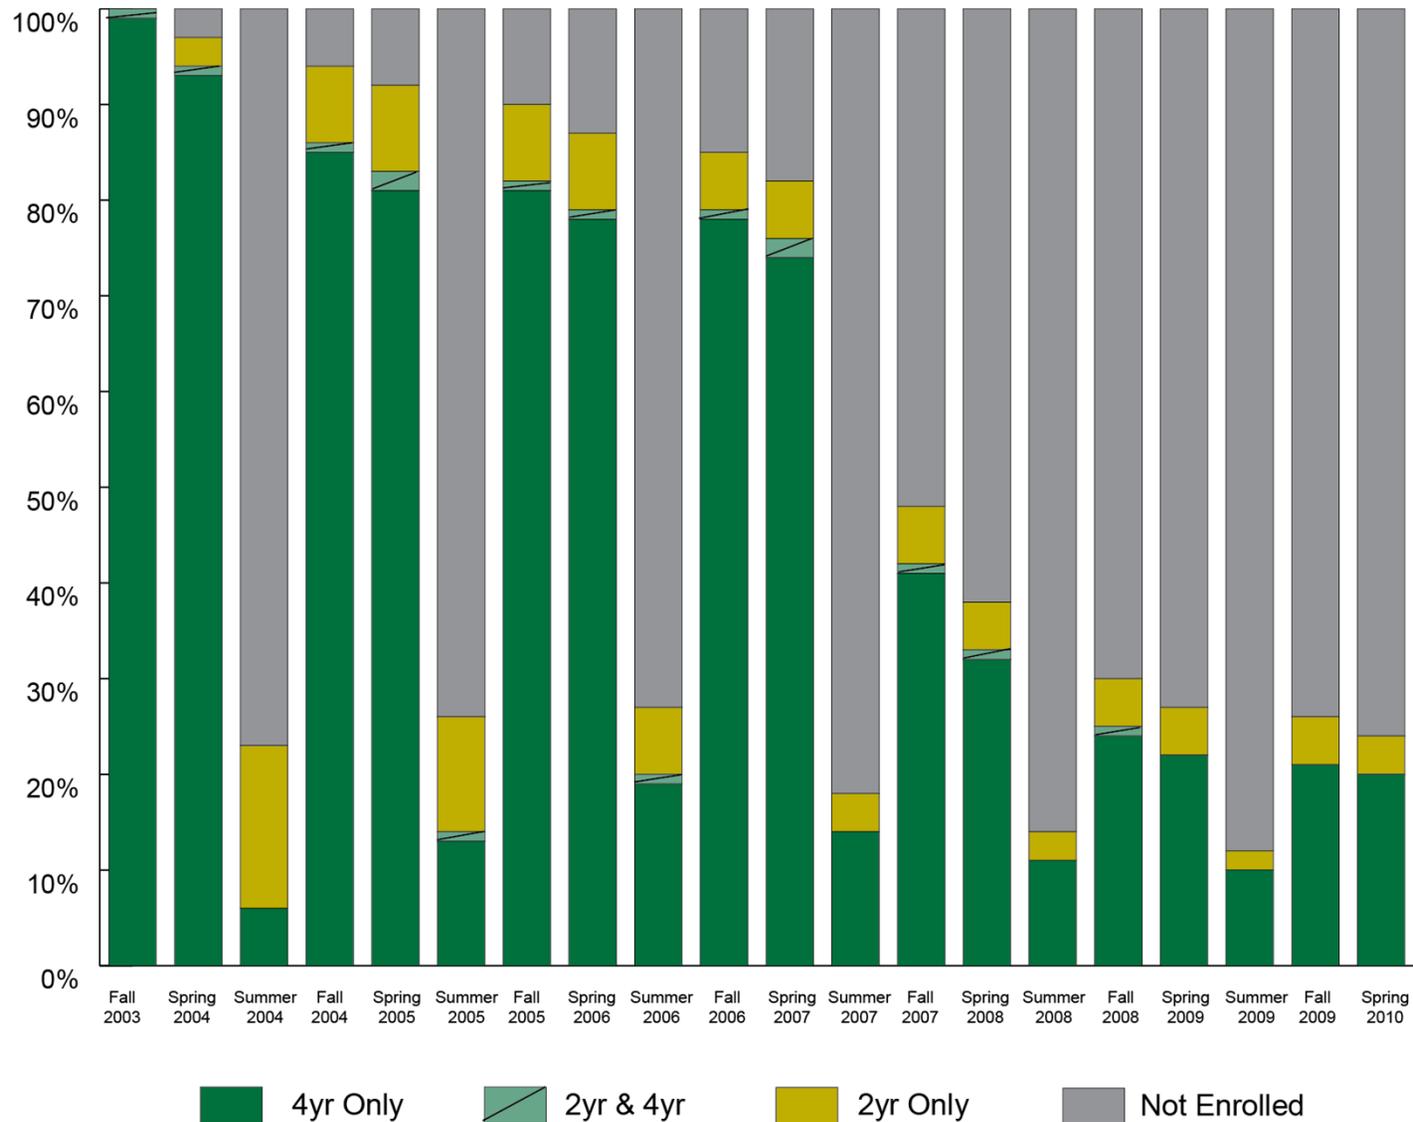

Overview of Presentation

- Describe longitudinal data sources
 - Present
 - Future (ILDS)
- Synopsis of recent IERC studies
 - Adaptive transfer/enrollment patterns
 - Maladaptive transfer/enrollment patterns
- Policy Implications

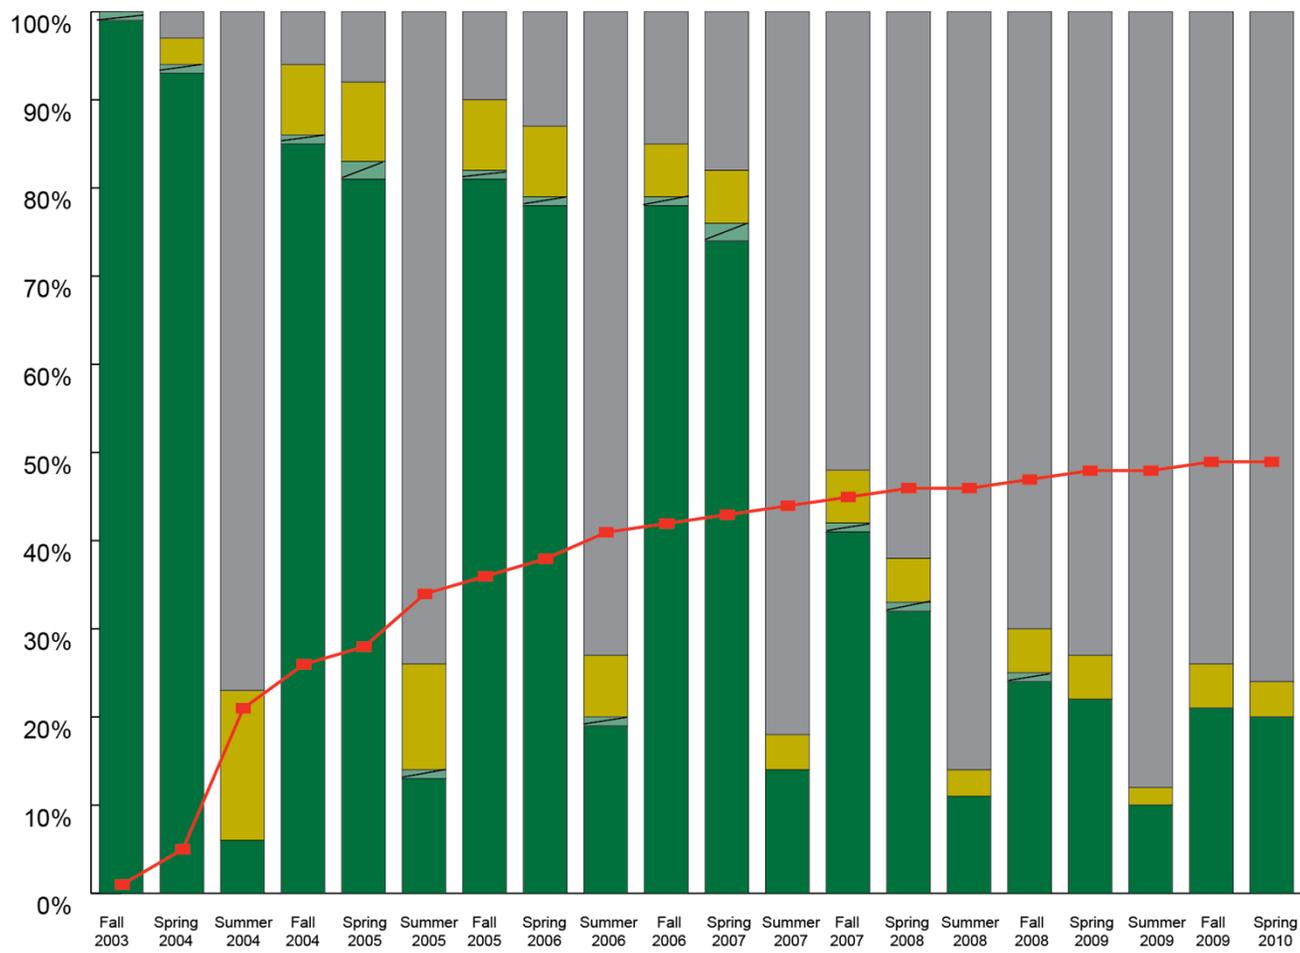

Issues with Current Reporting Requirements

- Centered on institutions reporting information in isolation
- Does not take into consideration the outcomes of transfer students, nor does it treat transferring as an outcome
- Cohort approach-first-time/ full-time
- IERC longitudinal studies track students
 - Allow for higher education to be viewed more systemically, rather than in isolation

Enrollment at 4yr and 2yr Institutions

Enrollment Trends for Four-Year Starters

4yr Only
 2yr & 4yr
 2yr Only
 Not Enrolled

Cumulative Rate of Enrollment at Two-Year Institutions

Current Sources of Data for IERC Enrollment/Transfer Studies

- **ACT-PSAE** and the Student Interest Profiler
- **National Student Clearinghouse**-covers 92% of all postsecondary enrollment
- **Illinois Interactive High School Report Card**-institutional characteristics of the high schools
- **IPEDS and IBHE**-sector of the postsecondary institutions
- **IDES**-earnings and employment
- **Institutional Sources**

Future Data Sources

- Once ILDS comes on line may be able to get course-level information,
 - high school math ladder
 - # of high school courses
 - honors/AP/IB track
 - high school GPA

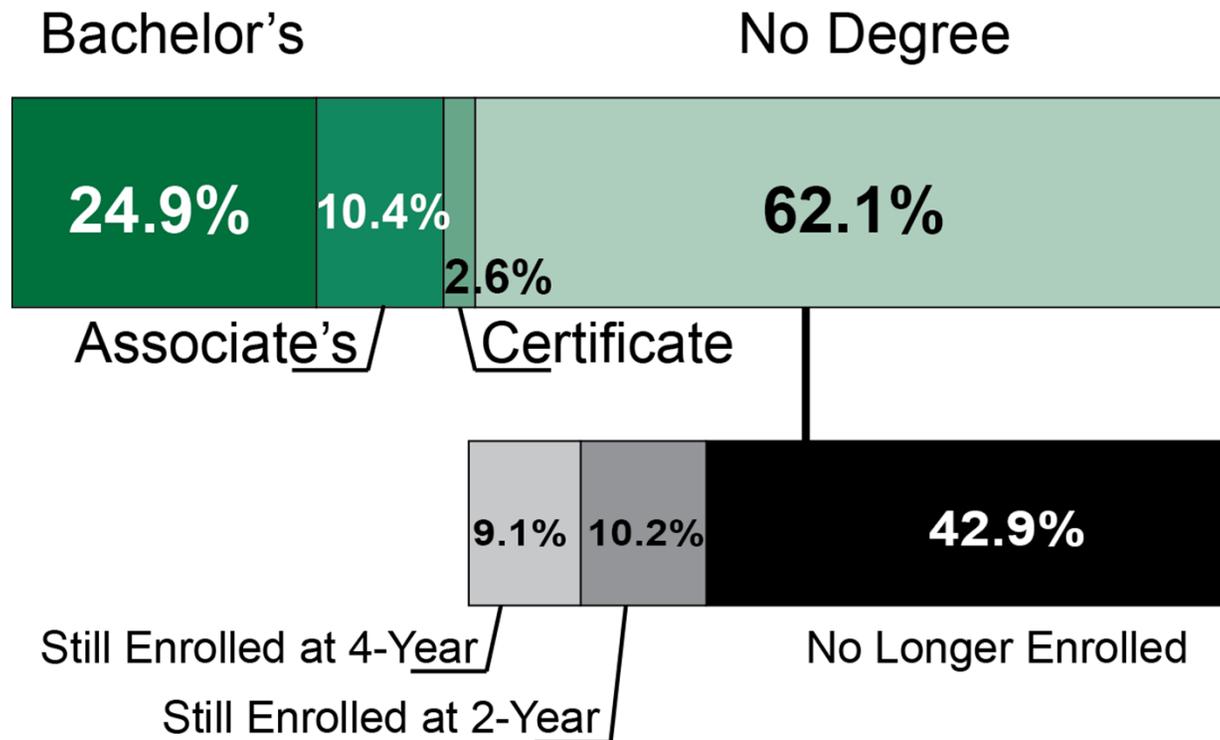

Maladaptive Enrollment/Transfer Patterns

- For four-year college students
 - Reverse transferring, undermatching
- For community college students
 - Transferring early, enrolling part-time, transferring without a degree

Reverse Transfer and End of Study Status

End of Study Status						
		Bachelor's Degree or Higher	Non-Completers			Total
			Still Enrolled at 4-yr	Still Enrolled at 2-yr	No Longer Enrolled	
Reverse Transfer Students	Row %	24.9%	12.1%	12.4%	50.6%	100.0%
	Column %	7.2%	54.9%	100.0%	50.2%	20.7%
Other Four-Year Starters	Row %	84.3%	2.6%	0.0%	13.1%	100.0%
	Column %	92.8%	45.1%	0.0%	49.8%	79.3%
Total	Row %	72.0%	4.6%	2.6%	20.9%	100.0%
	Column %	100.0%	100.0%	100.0%	100.0%	100.0%

Highest Degree and End of Study Status for Reverse Transfer Students

College Readiness, Institutional Selectivity, and Bachelor's Completion

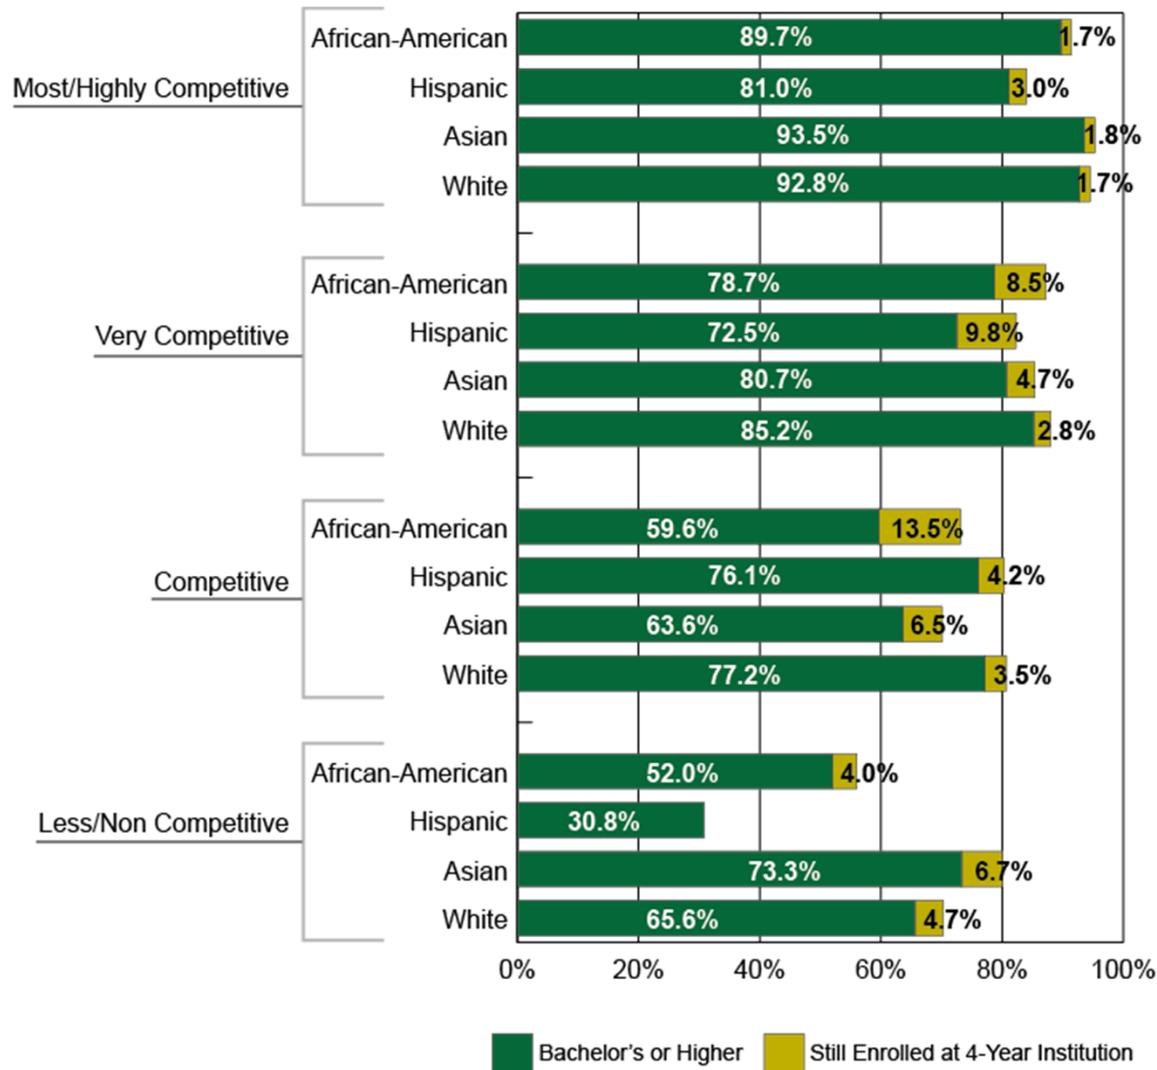

Selectivity	End of Study Status			
	Bachelor's or Higher	Still Enrolled at Four-Year	Still Enrolled at Two-Year	No Longer Enrolled
Most/Highly Competitive				
All Four	92.2%	1.7%	0.6%	5.5%
3 of 4	89.2%	2.1%	1.0%	7.7%
2 of 4	82.5%	4.2%	1.1%	12.3%
1 of 4	74.3%	2.3%	3.6%	19.8%
None	72.7%	7.1%	2.0%	18.2%
Very Competitive				
All Four	83.2%	3.4%	1.3%	12.1%
3 of 4	82.4%	3.5%	1.6%	12.4%
2 of 4	72.0%	5.7%	3.1%	19.2%
1 of 4	68.4%	5.6%	4.0%	22.0%
None	55.9%	8.7%	4.9%	30.5%
Competitive				
All Four	76.6%	3.8%	2.0%	17.6%
3 of 4	74.2%	3.1%	2.3%	20.4%
2 of 4	66.4%	5.4%	3.4%	24.9%
1 of 4	62.2%	5.6%	4.4%	27.8%
None	46.7%	8.2%	4.7%	40.4%
Less/Non Competitive				
All Four	63.6%	4.7%	2.5%	29.2%
3 of 4	60.3%	4.5%	3.7%	31.5%
2 of 4	49.8%	9.3%	4.2%	36.8%
1 of 4	42.8%	9.3%	4.2%	43.7%
None	27.5%	10.9%	6.6%	55.0%

- Students meeting two of four benchmarks from the most competitive institutions had similar rates of bachelor's completion as students meeting all four benchmarks enrolling at very competitive institutions.
- The least prepared students enrolling at the most competitive institutions outperformed the best prepared students at less competitive institutions.

Adaptive Transfer and Enrollment Patterns

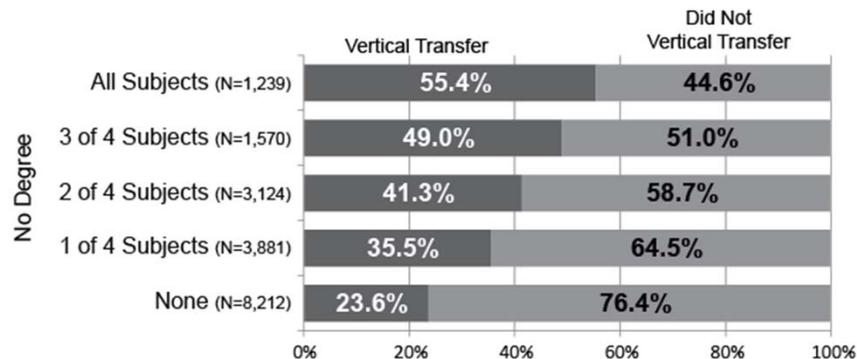

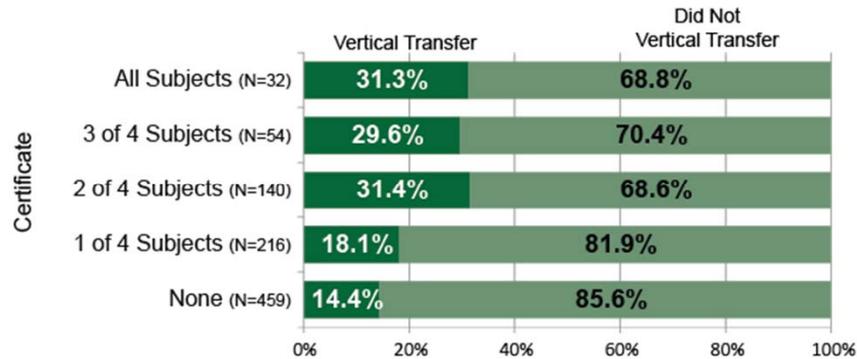

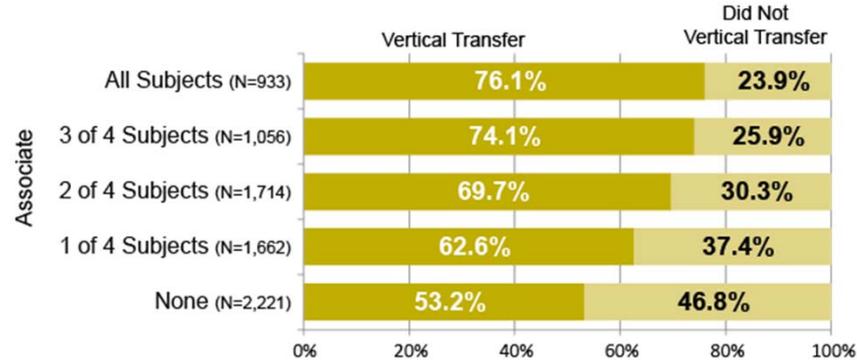

- Four-year college students
 - Enrolling at more selective institutions, taking summer courses, having participated in dual-credit
- Community college students
 - Consistent full-time enrollment, transferring with an associate degree, having participated in dual-credit

The Interaction of Institutional Selectivity & Race and Bachelor's Completion

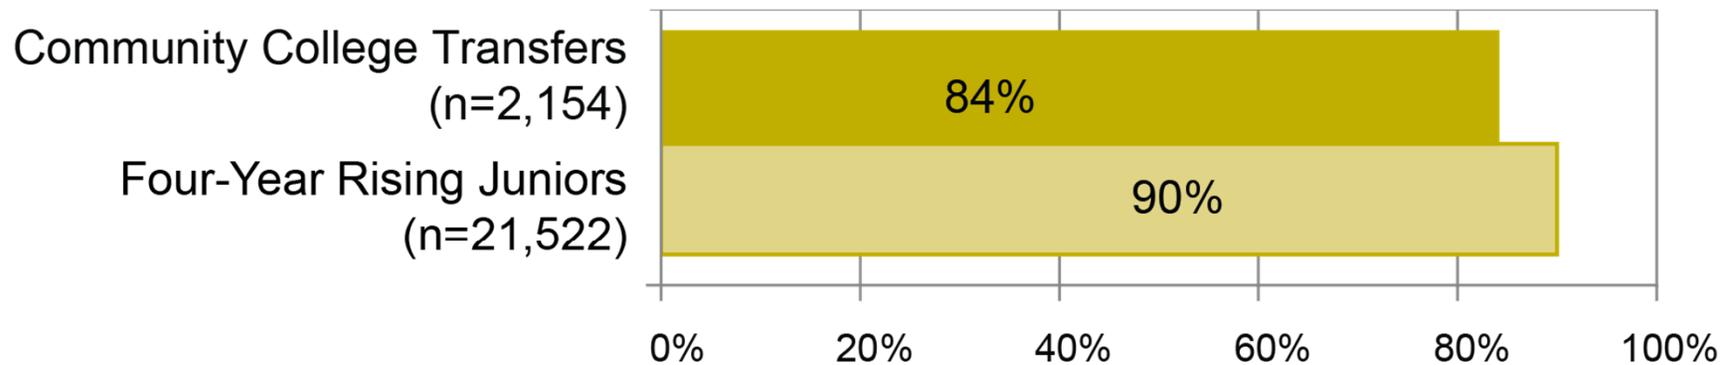

- For the most-ready Hispanic students, there was only a moderate difference between those enrolling at competitive or better institutions.
- However, among the most-ready Hispanic students there was a sharp decline in BA completion at non-competitive institutions.
- Enrolling at a highly selective institution narrows the racial gap for African-American students.

Highest Community College Degree, College Readiness, and Vertical Transfer Rates

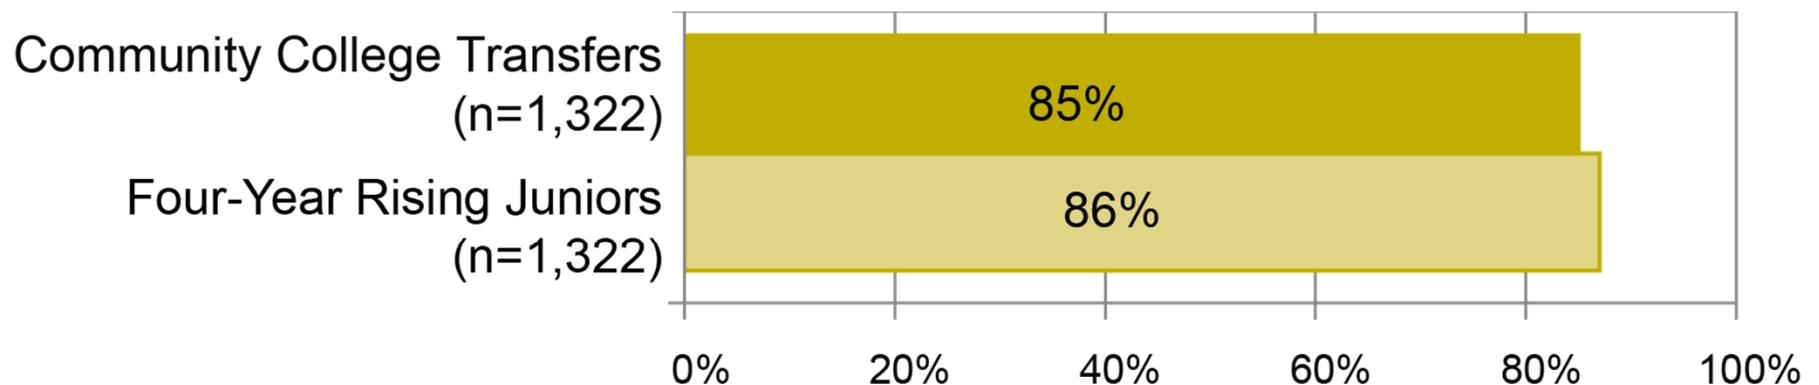

Bachelor's Completion Rates Prior to Matching

* Statistically significant based on Pearson's Chi Square

Bachelor's Completion Rates after Propensity Score Matching and Post-Treatment Adjustment

*Pearson's Chi Square not significant

- After matching on key factors, *no community college penalty was evident.*

Dual Credit Dual Enrollment

Witt, A., Lichtenberger, E., Blankenberger, B. & Franklin, D. (2012). *Dual credit/dual enrollment and data-driven policy implementation: Reform initiatives and postsecondary credential attainment*. Paper presented at the Association for Institutional Research's Annual Forum: New Orleans, LA.

- DCDE for students that graduated high school in 2003
- 16% of students participated
- Wide variation depending on geographical region

Summary of Findings

Maladaptive Patterns

- RT students much lower BS completion rates
- Students undermatched had lower Bachelor's completion rates
- Hispanic students had much reduced Bachelor's completion rates if attending non-competitive institutions

Summary of Findings

Adaptive Patterns

- Enrolling at more selective institutions
- African Americans closed the completion gap when overmatched
- Community College students who enrolled FT for 4 terms and then transferred
- DCDE increased enrollment
- DCDE increased completion for low income students

Policy Implications

- Continue to develop baseline information about statewide enrollment/transfer performance.
- Set goals for institutional performance related to vertical transfer.
- Importance of tracking transfer patterns, ILDS will be beneficial for this
- Expanding articulation initiatives to give credit to student after transferring

Policy Implications (2)

- Providing academic & financial advisement regarding attending appropriate-level institution
- Help students face their financial aid future by developing information and incentives spanning undergraduate enrollment.
- Preliminary evidence (supported elsewhere) suggests the importance of FT, continuous enrollment toward degree completion
